Parts are Parts

Part No: 053482

Description: Board, Sensor Upper 8400609B

Usage: This is the upper sensor board located in the WBA-10/11/12/13 units. The sensor board scans and recognizes the currency that travels through the bill path. The sensor board captures the optic and magnetic patterns of a bill.

Note: This sensor board contains advanced optical duplex and multi-plexing sensors, plus two types of magnetic sensors. By combining these two sensor technologies, JCM is able to provide the highest acceptance rate. During normal preventive maintenance, wipe off the lenses above the optical sensors, and the three magnetic sensor heads to ensure peak acceptance.

The list of JCM bill validator software provided herein notifies customers of the latest versions developed. However, the listing does not identify versions approved by gaming jurisdictional authorities for actual use. Customers should consult JCM's Customer Service/Parts Sales departments concerning approved versions for jurisdictions of intended use.

* i suffix indicates Intelligent Cash Box option.

Save Time and Labor with JCM's Intelligent Cash Box System

The ICB® (Intelligent Cash Box) system is a unique cash box/cash flow management system that allows the operator to track a cash box and its contents through the entire cash flow process. The ICB system eliminates the need for dedicating cash boxes to specific machines, or putting barcode identification on the cash boxes. The cash boxes are tracked electronically eliminating most variance issues.

Customer Notification/Tech Tips:

Question: What hardware will I need to upgrade my JCM bill validators to accept the NexGen bills?

Answer: JCM has made it quick and easy to perform flash memory downloads on your existing JCM equipment. The following hardware kits can be ordered to download their appropriate JCM flash memory bill validator:

- (Part No. 701-000017) - DT004, Download Tool (functions as a stand-alone unit.)
For single download of the WBA-10/20/12/22 / DBV-200 units: A2XX/B0XX/B4XX
- (Part No. 701-000021) - DBV-200 Multi-download Tool (functions as a stand-alone unit.)
For 10 unit download of the DBV-200 units only: A2XX/B0XX/B4XX

These kits can also be ordered with an adapter to download multiple units:

- (Part No. 701-000031) - Consists of 701-000017 & 701-000020 (Multi-download Adapter Kit)
For multiple download of the WBA-10/20/12/22 & DBV-200 units: A2XX/B0XX/B4XX
- (Part No. 701-000030) - Consists of 701-000021 & 701-000020 (Multi Download Adapter Kit)
For 20 unit download of the DBV-200 units only: A2XX/B0XX/B4XX
