

Technical Bulletin 00401

www.jcm-american.com

The JCM web site provides the tools you need, including the software information database with DIP switch information, our photo parts catalog, online ordering form, repair service, and more.

Parts are Parts

Part No: 550-100042

Description: Power Supply, PS 15-006

Usage: The PS 15-006 is a 12-volt power supply with a built-in serial adapter. It is used to test the WBA and DBV-200 series validators, and to download software when used with a personal computer.

Note: The connections on the power supply include; 110 v grounded plug, 9-pin serial harness, and a WBA-10 connector. For testing the WBA-12/13, use the adapter harness, Part No. 400-100109. For DBV models b0/b1/a2/a3, use adapter harness, Part No. 400-100072. For DBV models b4/b5, use adapter harness, Part No. 400-100042.

The list of JCM bill validator software provided herein notifies customers of the latest versions developed. However, the listing does not identify versions approved by gaming jurisdictional authorities for actual use. Customers should consult JCM's Customer Service/Parts Sales departments concerning approved versions for jurisdictions of intended use.

* i suffix indicates Intelligent Cash Box option.

Save Time and Labor with JCM's Intelligent Cash Box System

The ICB[®] (Intelligent Cash Box) system is a unique cash box/cash flow management system that allows the operator to track a cash box and its contents through the entire cash flow process. The ICB system eliminates the need for dedicating cash boxes to specific machines, or putting barcode identification on the cash boxes. The cash boxes are tracked electronically eliminating most variance issues.

* DWN211 and DWNNET use a computer running Windows® 95 or Windows® 98 connected to the PS 15-006 power supply (Part No: 550-100042). The power supply has a 9-pin serial cable for connection to the PC. The standard interface connector on the power supply fits a WBA-10, but adapters allow connections to all other units.
