F Out Guide

Part No. 052664

Description: F Out Guide

Usage: The primary purpose of the F Out Guide is to act as a prism for the Transport Feed-Out Sensor. The slots on the bottom also help guide the transport into the frame.

Usage: The F Out guide should be cleaned during normal preventative maintenance intervals. Smoke or fine dust build-up can prevent the Feed-Out Sensor from functioning properly. In addition, the guide 'fingers' may be broken if the transport is improperly inserted into the frame. Although this will not affect the performance of the Bill Acceptor, it is suggested you replace a damaged F Out Guide whenever possible to prevent alignment errors.

Technical Tips

As 2004 draws to a close this holiday season JCM would like to take the time to thank YOU, our customer, for helping us have another successful year. Your loyalty and support are what enable JCM to continue offering innovative product ideas and the latest technology concepts year after year.

This year JCM was proud to unveil the Universal Bill Acceptor and the Trident Table Game System at the Global Gaming Exposition. Both of these products are truly revolutionary and will begin selling in 2005. We also began selling the TSP-02 (Thermal Security Printer) and representing the TOVIS monitor product line. Each JCM employee is committed to providing our customers with the absolute highest quality product and service possible. As we continue to expand our company in size and product offerings, you can be assured that the same quality of service you have come to expect from JCM will continue.

From all the JCM family members to you and your families, we wish you a safe and happy holiday season, and a prosperous new year.
