The JCM web site provides the tools you need, including the software information database with DIP switch information, our photo parts catalog, online ordering form, repair service, and more.

## Parts are Parts

ICB Retrofit Kit Components

**Part No.** 701-000179R

**Description:** UBA ICB Conversion Kit

**Usage:** Required to convert a standard UBA Plastic Cash Box into use with the Intelligent Cash Box System.

**Note:** When converting Plastic Cash Boxes for use with an ICB system, it is necessary to change the box handle to the shorter length version. Retain the original handle mounting hardware to remount the shorter version handle. The ICB module contains a metal frame that also mounts to the Cash Box along with the ICB Module and a cover that mounts to the box frame.

The list of JCM bill validator software provided herein notifies customers of the latest versions developed. However, the listing does not identify versions approved by gaming jurisdictional authorities for actual use. Customers should consult JCM's Parts Sales departments concerning approved versions for jurisdictions of intended use.

## Save Time and Labor with JCM's Intelligent Cash Box System

The ICB® (Intelligent Cash Box) system is a unique cash management system that allows the operator to track a cash box and its contents through the entire cash process. The ICB system eliminates the need for dedicating cash boxes to specific machines, or putting barcode identification labels on the cash boxes. The cash boxes are tracked electronically eliminating most variance issues, and with the custom reports provided to each department, accuracy and efficiency is greatly improved.

# FREE REGIONAL TRAINING

Technical Bulletin 200701 January 2007

## Technical Tips

**Question:** Does JCM offer a retrofit upgrade for Bar Top machines that currently use the DBV-200-SS unit?

**Answer:** Yes. A kit now exists that allows Bar top gaming systems currently using the DBV-200 platform to be updated to either UBA or WBA technology. Upgrading improves sensing technology, allows upgrading the entire floor to an ICB capability, and reduces the number of different spares required allowing inventory to be streamlined. These kits include all parts necessary to implement the conversion including harnessing, new bezel and mounting hardware. The following four different cosmetic finishes are available for this upgrade kit:

- 701-100035R TI Gold
- 701-100036R Chrome
- 701-100037R Brushed Stainless Steel
- 701-100038R Regular (Black)
