Save Time and Labor with JCM's Latest Intelligent Cash Box System

The ICB® (Intelligent Cash Box) system is a unique cash management system that allows the operator to track a Cash Box and its contents through the entire cash process. The ICB system eliminates the need for dedicating Cash Boxes to specific machines, or putting bar code identification labels on the Cash Boxes. The Cash Boxes are tracked electronically, eliminating most variance issues, and with the custom reports provided to each department, accuracy and efficiency are greatly improved.

Give your technicians the tools they need to keep your customers happy and your equipment running at peak efficiency.

Technical Tips

Question: How can the PayCheck 4 Printer be tested?

Answer: The PayCheck 4 TITO Printer can be tested with the Nanoptix™ Printer Status Application. To use the Printer Status Application:

1. Download the Printer Status (Current) application from http://nanoptix.com/techsupport/software/npxstatus.
2. Install the application on a PC.
3. Connect the PayCheck 4 Printer to the PC using a standard USB cable.

   Note: The application will locate the connected Printer and display the Printer Type in the Available USB Printers Field (Figure 2).

4. From the opening screen, the Sensors can be tested, or pre-configured Reports can be printed from the Printer Commands Menu to test the PayCheck 4 printer functionality (Figure 3).

For additional information, contact your local JCM Sales Representative at (800) 683-7248.
