Parts are Parts

Figure 1: 2.5mm Hex Nut Driver

Figure 2: Centering Guide Open Port

Part No. 501-000131R

Description: 2.5mm Hex Nut Driver

Usage: The 2.5mm Hex Nut Driver (**Figure 1**) is used to disengage the Centering Guides on the UBA® Transport Top Cover, if a Banknote needs to be removed.

Note: When the Centering Guides “center” a Banknote, they engage the Top Cover, preventing access during Banknote validation. To remove a Banknote from the UBA Transport:

1. Disconnect electrical power to the UBA Transport.
2. Insert a 2.5mm Hex Nut Driver into the **Centering Guide Open** port (located on either side of the UBA Transport Unit) to engage the white drive gear.
3. Turn the Hex Nut Driver clockwise (approximately 2.5 turns). The Centering Guides will release the Top Cover.
4. Open the Top Cover and remove the Banknote.

Save Time and Labor with JCM's Latest Intelligent Cash Box System

The ICB® (Intelligent Cash Box) system is a unique cash management system that allows the operator to track a Cash Box and its contents through the entire cash process. The ICB system eliminates the need for dedicating Cash Boxes to specific machines, or putting bar code identification labels on the Cash Boxes. The Cash Boxes are tracked electronically, eliminating most variance issues, and with the custom reports provided to each department, accuracy and efficiency are greatly improved.

FREE REGIONAL TRAINING

Give your technicians the tools they need to keep your customers happy and your equipment running at peak efficiency.
