Figure 1 UBA Calibration Kit Components (P/N 701-100086RA)

Part No. 701-100086RA

Description: UBA Calibration Kit (Mag Tool Kit)

Usage: The UBA Calibration Kit contains the Mag Board Tool with Power Supply and three Calibration Reference Papers (KS-064 UV, KS-063 Black and KS-062 White).

The UBA Calibration Kit is used in conjunction with the JCM Tool Suite™ Software Application's Sensor Adjustment Program.

Note: The UBA Unit may require calibration when one of the Printed Circuit Boards, Sensors or the CPU Board is removed or replaced. If Banknote acceptance is not at acceptable levels after the UBA Unit has been cleaned, calibration is strongly recommended.
