Parts are Parts

Figure 1 UBA® Centering Motor (P/N 451-000071R)

Part No. 451-000071R

Description: UBA® Centering Motor

Usage: The UBA Centering Motor (Figure 1) moves the UBA's Centering Arms toward the center of the UBA Banknote Path to position an inserted Banknote into the center of the Banknote path, then reverses movement to move the Centering Arms back to the home position.

Note: If Acceptance Rates appear reduced, clean the UBA, then check the Centering Mechanism operation for smooth movement and full functionality of the Centering Motor. To test the Centering Mechanism:

1. Turn UBA Power OFF, then turn DIP Switches 1, 5 and 8 ON.
2. Apply UBA Power, then set DIP Switch 8 OFF.
The Centering Arms will cycle between the most centered and most open positions (two cycles full-speed, followed by one cycle incremental) until the test is stopped by setting DIP Switch 8 ON.

The Latest JCM Software Listing (shown above) identifies specific software versions that have been released to OEMs. It is the responsibility of the OEM to obtain all required approvals from Gaming Regulators and Jurisdictional Authorities necessary for use of approved software versions. Contact the Game Manufacturer (OEM) for information on specific software releases approved for use within your gaming jurisdiction.

JCM recommends using the latest version for maximum acceptance, security, and performance.

JCM Service Offerings

JCM offers the following services to help keep your JCM Products performing within factory specifications:

- **Warranty and Non-Warranty Service and Repair**
- **Custom Training Classes**
- **Unit Exchange Programs**
- **Preventive Maintenance Programs**
- **ICB Data Analysis**
- **Validator Performance Analysis**

JCMedia™ Is The Source For All Your Video Needs!

JCMedia™ solutions incorporate the latest digital display technology (single screen to large scale video wall solutions), digital content creation services and networked solutions for all your media needs. JCMedia now offers the only upgradeable pixel pitch LED Displays using JCM's PIXELPRO™ Display Technology. PIXELPRO products combine unsurpassed color uniformity and the best pixel-to-pixel resolution available in the Gaming industry in an easy-to-install package. PIXELPRO MAX™ provides a high-resolution interlocking panel solution for large scale LED Video screens. PIXELPRO FLEX™ offers articulating panels for curved surface implementations, and PIXELPRO CUBE™ supports 3-D Video Displays. For more information, please visit the JCM Global website at jcmmedia.jcmglobal.com!

FREE REGIONAL TRAINING

Technicians need training, but is time or class availability a problem? JCM Online Training offers classes to meet your schedule and your needs. JCM Online Training Programs feature the same content as JCM On-site Training with the added convenience of flexible scheduling. Visit training.jcmglobal.com for more information or to register for classes.
