Figure 1 iVIZION® Pusher Mechanism (P/N 197878)

Part No. 197878

Description: iVIZION® Pusher Mechanism

Usage: The iVIZION Cash Box's Pusher Mechanism (Figure 1) features stronger gears mounted flush to the surface and away from the edge to prevent damage. The Pusher Mechanism can be moved manually to verify the last accepted Banknote through the Cash Box's dispute windows. The Pusher Mechanism Transport Belt System's serpentine design has fewer contact points on the Banknote, allowing smoother transition into the Cash Box. The iVIZION Unit's Stacker Motor rotates in one direction only, accepting and stacking Banknotes in less than three (3) seconds note-to-note.

Note: The Pusher Mechanism can be removed for service, cleaning or replacement. To do so, remove two (2) screws and slide the Pusher Mechanism out of the Cash Box.

The Latest JCM Software Listing (shown above) identifies specific software versions that have been released to OEMs. It is the responsibility of the OEM to obtain all required approvals from Gaming Regulators and Jurisdictional Authorities necessary for use of approved software versions. Contact the Game Manufacturer (OEM) for information on specific software releases approved for use within your gaming jurisdiction.

JCM recommends using the latest version for maximum acceptance, security, and performance.

JCM Service Offerings

JCM offers the following services to help keep your JCM Products performing within factory specifications:

- Warranty and Non-Warranty Service and Repair
- Custom Training Classes
- Unit Exchange Programs
- Preventive Maintenance Programs
- ICB Data Analysis
- Validator Performance Analysis

JCMedia™ Is The Source For All Your Video Needs!

JCMedia™ solutions incorporate the latest digital display technology (single screen to large scale video wall solutions), digital content creation services and networked solutions for all your media needs. JCMedia now offers the only upgradeable pixel pitch LED Displays using JCM's PIXELPRO™ Display Technology. PIXELPRO products combine unsurpassed color uniformity and the best pixel-to-pixel resolution available in the Gaming industry in an easy-to-install package. PIXELPRO MAX™ provides a high-resolution interlocking panel solution for large scale LED Video screens. PIXELPRO FLEX™ offers articulating panels for curved surface implementations, and PIXELPRO CUBE™ supports 3-D Video Displays. For more information, please visit the JCM Global website at jcmmedia.jcmglobal.com!

FREE REGIONAL TRAINING

Technicians need training, but is time or class availability a problem? JCM Online Training offers classes to meet your schedule and your needs. JCM Online Training Programs feature the same content as JCM On-site Training with the added convenience of flexible scheduling. Visit training.jcmglobal.com for more information or to register for classes.

Technical Bulletin 201810 September 2018

Technical Tip

Question: Is the 600 Ticket Tray Extension (Plastic) for the GEN5™ Printer available?

Answer: The 600 Ticket Tray Extension (Plastic) for the GEN5™ Printer (**Figure 2**) is available to ship.

The GEN5 Printer's 200 Ticket Capacity Standard paper tray can easily be upgraded using the 600 Ticket Tray Extension (P/N 370-00478-100). The 600 Ticket Tray Extension reduces downtime due to Paper Out conditions, resulting in more play time for customers.

The easy-to-install 600 Ticket Tray Extension fits onto the existing GEN5 Printer Paper Tray, and is secured using four (4) self-tapping screws provided with the 600 Ticket Tray Extension.

A metal 600 Ticket Tray Extension (P/N 320-00224-101) is also available (in limited supplies) from JCM. If greater paper capacity is needed, a metal 900 Ticket Tray Extension (P/N 320-00224-102) is also available.

For additional information on JCM Products, visit the JCM Global website at www.jcmglobal.com, or contact your local JCM Sales Representative at (800) 683-7248.
