**Conditions:**  
 In an ongoing effort to improve product security JCM Engineering has developed a metal security bracket, (CN Stopper 2, P/N 200-200500R) to prevent potential WBA manipulation.

**Resolution:**  
 The CN Stopper 2 prevents access to the pins at the rear of the validator connector and will be installed on all new production WBA models beginning in September, 2008 (Refer to Figure 1). The version indicator will be changed from 7 to 8 marked on the rear of the transport. (Refer to Figure 2.)
