### **JCM Global Brings CLEAR Digital Signage Solutions to Hollywood Casino Morgantown**

LAS VEGAS (January 14, 2026) – The way to the fun and excitement of the high limit area at Hollywood Casino Morgantown is now clear with two new DSS CLEAR™ installations from JCM Global® (JCM).

JCM installed two eye-catching CLEAR solutions on the perimeter of Hollywood Casino Morgantown's high limit area. The two pieces of the CLEAR half wall allow for multiple entrances into the high limit area, and their exceptional transparency ensures visibility throughout the space. Each breathtaking display is 4 feet high, and one reaches more than 16 feet in length, while the other stretches an incredible 44 feet.

"This installation at Hollywood Casino Morgantown is another great example of how casinos can use JCM CLEAR displays both as a marketing vehicle and as a barrier between areas, creating separation without shutting people out," said Dave Kubajak, JCM SVP – Sales, Marketing & Operations. "We are thrilled to bring this new technology and branding tool to our long-term partners at Hollywood Casino Morgantown."

The Hollywood Casino Morgantown casino floor is exclusively equipped with JCM's iVIZION® bill validator, GEN5™ thermal printer, and ICB® Intelligent Cash Box system.

The infinitely programmable CLEAR signage solutions are part of JCM's extensive line of impressive digital signage solutions that empower casinos to dynamically and creatively communicate with their guests, indoors and outdoors. The company's thriving DSS business continues to expand across the U.S. and Canada, both indoors and outdoors.
