### **JCM Global Installs Award-winning ICB Intelligent Cash Box System at Harrah's Ak-Chin Hotel and Casino**

***ICB now on more than 286,000 EGMs in the U.S.***

LAS VEGAS (May 27, 2026) – JCM Global® (JCM) has installed its award-winning ICB® Intelligent Cash Box system on each of the 1,150 slot and video poker games at Harrah's Ak-Chin Hotel and Casino in Phoenix, Ariz. With ICB, casinos can expect faster, more efficient, and even more accurate drops because ICB is proven to eliminate seven common points of human error throughout the process.

JCM is one of the gaming industry's largest systems providers, and its ICB system is now on more than 286,000 EGMs in the U.S.

The installation is the latest development in a long-term relationship between JCM and Harrah's Ak-Chin Hotel and Casino, where the property's EGMs are exclusively protected by JCM's industry-leading iVIZION® bill validator.

Dave Kubajak, JCM SVP – Sales, Marketing & Operations, said, "Harrah's Ak-Chin's casino floor has more slot machines, more tables, and now has more efficiency and accuracy with the ICB system. Operators of all sizes across the U.S. are reaping the many financial and logistical benefits of ICB, and we are thrilled to bring this advanced technology to Harrah's Ak-Chin."

JCM's ICB Intelligent Cash Box system speeds the entire drop process while also eliminating human error, increasing accuracy, and increasing compliance. Because it drives efficiencies, ICB is proven to reduce annual operating costs for operators. It provides increased visibility and efficiency for the drop and count processes, such as monitoring of bill validator metrics, customizable web reports, and maintenance planning to dramatically increase operational efficiency.
