JCM GOLD (H.K.) OPENS NEW SALES OFFICE IN MACAU

We would like to announce that JCM GOLD(H.K.)LTD. has opened a new sales office in Macau, responding quickly to the growing needs of its customers in Macau, and we aim to enhance the sales activity and the customer support in the area.

1.Outline of branch

|  |   |
|--|---|
| Name of Branch                               | JCM GOLD(H.K.)LTD, MACAU BRANCH   |
| Address                                      | Unit N, 6/F, Dynasty Plaza<br>393-437 Alameda Dr. Carlos D'Assumpcao, Macau           |
| Opening Date                                 | March 10, 2006  |
| Expenditures related to office establishment | About 50 million yen (Expenses for acquisition of base & facility)                    |
| Description of business                      | Sales and maintenance service of money-handling machines, such as bill validator unit |

2. Outlook for the future

The bill validators that we manufacture and sell are utilized in slot machines installed in casinos around the world. In these years, with the increased number of tourists and opening of large-scale casino hotels, the casino market has been booming in Macau. A number of large companies are still planning to build great hotels within the next few years, and we anticipate more expansion of casino business in Macau.

We engage in expanding our business and improving our reputation in Macau by setting up this local office, and we seek to increase the customer reliability and their orders in the future by providing local services.

This opening will give little impact on our financial results on March 2006.
