RED ROCK CASINO RESORT SPA TO OPEN EXCLUSIVELY WITH JCM AMERICAN PRODUCTS

LAS VEGAS (April 10, 2006) – When the world’s newest casino, the Red Rock Casino Resort Spa, opens in Las Vegas this month, the casino floor will be protected by the most secure technology available, thanks to JCM American’s Universal Bill Acceptor (UBA™). The casino will be exclusively equipped with the UBA and JCM’s Intelligent Cash Box (ICB®).

The Red Rock contract is the latest in a continuing wave of success for the UBA and ICB since making their premiere at Wynn Las Vegas last year. Since then, the award-winning products have been selected by top operators around the world.

“Being at Red Rock is very exciting news for JCM. The property will set a new standard in ‘locals’ casinos. Clearly, Station Casinos has carefully selected only the very best for this new property, and we are honored to be a part of that exclusive group of suppliers,” said JCM VP of Gaming Solutions, Tom Nieman.

The UBA is the next generation bill validator, utilizing the latest sensing technology, including magnetic *and* optical sensors. The UBA is completed by its forward/backward-compatible, high-impact Plastic Cash Box. The ICB system links the slot floor and the backend, increasing efficiency by reducing common human errors in casino drop and count processes.

JCM American Corporation is the industry leader in currency handling systems and provides products, software and services to the gaming, vending, banking, amusement, and petroleum

industries. Since 1995, its products have validated an estimated \$2.2 trillion in currency for the gaming industry alone. From its international headquarters in Osaka, Japan, and affiliates in Düsseldorf, Hong Kong, London, Sydney and its U.S. headquarters in Las Vegas, JCM's progressive spirit continually sets worldwide industry standards with innovative products such as the World Bill Acceptor (WBA®), Universal Bill Acceptor (UBA™), Trident™ Table Safe System and Intelligent Cash Box (ICB®).
