EASTSIDE CANNERY JOINS IMPRESSIVE LIST OF CASINOS CHOOSING JCM GLOBAL'S UBA AND ICB IN 2008

JCM Suite of Products to be Installed on Casino's 2,182 Devices

LAS VEGAS (August 27, 2008) – You could say JCM Global is 100 percent behind the new Eastside Cannery Casino Hotel. That's because the new Las Vegas property will open stocked 100 percent with JCM's award-winning Universal Bill Acceptor (UBA®) and the Intelligent Cash Box (ICB®).

JCM products will exclusively be found in the 65,000 square foot casino, which will house 2,182 gaming devices. In the gaming devices will be JCM's award-winning UBA. The UBA has proven time after time to offer the highest acceptance rates, which equates to more money in the cashbox. The UBA uses the very latest in overt and covert currency validation technology to quickly and securely validate currency.

Improving the casino's overall efficiency will be the ICB, which provides an independent verification of every transaction and accurately links those transactions to the slot machine.

Cannery Resorts Director of Slot Technical Operations Joe Glowacki said, "We took a look at all our options and chose the UBA with ICB based on the performance of the equipment, the overwhelmingly positive comments from current ICB users and the support capabilities of JCM Global."

JCM Global President Aki Isoi said, "The new Eastside Cannery Casino Hotel pays homage to the strong industrial era, and we are thrilled that the property has selected JCM's products – products that are as strong, industrious and high-tech as the spirit the property emulates."

JCM Global is the automated transactions solutions provider trusted by operators and manufacturers alike. Its global offices are now united, providing top-level sales, engineering and service for the world's best systems solutions for the gaming, banking, vending and petroleum industries. JCM Global sets standards with products such as the World Bill Acceptor™, the Universal Bill Acceptor™, Intelligent Cash Box (ICB™) and Trident® Table Safe System, a patented cash handling system for table games.
