### **JCM GLOBAL'S iVIZION™ NAMED TO "TOP 10 SLOT FLOOR TECHNOLOGY AWARDS" LIST BY CASINO ENTERPRISE MANAGEMENT MAGAZINE**

LAS VEGAS (April 21, 2010) – JCM Global's incredible new iVIZION™ is a perfect ten, having now been named to the Top 10 list of Casino Enterprise Management magazine's "Slot Floor Technology Awards" for 2010. The Slot Floor Technology Awards was its most competitive ever, drawing 47 nominees, with just ten products making the winning list. The entrants were judged by a panel of slot management experts from across North America.

JCM Global President Akiyoshi Isoi said, "We are thrilled that iVIZION has received this honor. There were so many incredible technologies nominated, and to receive this distinction from a judging panel comprised of some of the top slot operations managers in North America validates our efforts."

More than a bill validator, iVIZION forever changes the way the gaming industry sees banknote validation. It is the foundation of intelligent validation and sees better, thinks smarter and runs faster than any comparable product in the industry.

iVIZION sees better with Contact Image Sensor (CIS) Technology, 100 percent full image capture of note and ticket, optical note centering and has the best optical and mechanical anti-stringing technology available. iVIZION thinks smarter with two high-speed processors; is 100 percent compatible with all gaming protocols; is self-calibrating; and has ICB® 2.0 RFID memory module with detailed web-enabled reports. iVIZION runs faster and has the fastest note-to-note processing speed, a 99 percent acceptance rate, an 85mm wide sealed bill path and a dust and liquid resistant design.

iVIZION made its world premiere at G2E 2009, and was immediately chosen by the Hard Rock Hotel & Casino Las Vegas to replace all of the casino's current bill validators.
