### **IGT NAMES JCM GLOBAL IT'S FIRST STRATEGIC TECHNOLOGY PARTNER**

LAS VEGAS (November 4, 2010) – Continuing a partnership that has lasted and grown over 20 years, International Game Technology (IGT) has named JCM Global the company's first Strategic Technology Partner. JCM Global is the first IGT supplier to achieve the designation. As a Strategic Technology Partner, JCM will work closely with IGT to develop new and innovative technologies that will improve the global gaming industry.

IGT developed a stringent list of criteria a company must meet to gain designation as a Strategic Technology Partner. The prospective company must:

- Deliver strong value
- Create innovative technology
- Give strong customer support
- Maintain consistent product performance
- Demonstrate willingness and ability to enter into a cooperative development partnership
- Have a well-defined corporate strategy

IGT Director Supply Chain Management Rick Lloyd said, "JCM and IGT have had a very productive and beneficial relationship since we first brought the embedded bill validator to the gaming industry in the early 1990s. Now we are thrilled to have JCM be the first company to meet all of our requirements to become a Strategic Technology Partner, and we are very excited for the future we will be building together."

"For 20 years, we have been working closely with IGT to integrate, innovate and improve automated transactions between the player and the operator on IGT gaming equipment. When together we first revealed the embedded bill validator, we changed gaming forever. Now we are looking forward to working hand-in-hand, creating new technologies that will leave lasting marks on the global gaming industry," said JCM President Akiyoshi Isoi.

Earlier this month, IGT designated JCM Global's incredible new iVIZION™ bill validator as the "global default component" for all new IGT gaming devices manufactured by The distinction means that IGT will place iVIZION into all new sales where applicable or permissible, plus into all IGT participation games.

JCM Global is the automated transactions solutions provider trusted by operators and manufacturers alike. Its global offices provide top-level sales, engineering and service for the world's best systems solutions for the banking, gaming, kiosk and retail industries. JCM Global sets standards with products such as the Universal Bill Acceptor (UBA®), Intelligent Cash Box (ICB®), the Vega™ bill validator and the new iVIZION™ bill validator.
