**JCM GLOBAL'S NEW PAYCHECK 4 THERMAL PRINTER NAMED A
"BEST CONSUMER SERVICE TECHNOLOGY"**

LAS VEGAS (October 17, 2011) – JCM Global has a long list of award-winning products in its portfolio, and now the company's new PayCheck 4™ Thermal Printer has been named to the "Best Consumer Service Technology" list in *Global Gaming Business* Magazine's 10th annual Gaming & Technology Awards.

The new PayCheck 4 is the fastest printer in the industry, and the only printer that is as fast as the gaming action on the casino floor. It prints a complete ticket in just 0.6 seconds, compared to up to two seconds by other printers. Additionally, PayCheck 4 has the most memory of any type printer, giving operators more power and flexibility to communicate directly with their customers. Last, it is the longest-lasting printer in the industry, with a print head that lasts twice as long as any competitive product, meaning more device up-time so customer play is interrupted less often.

PayCheck 4 prints so quickly, there is no need for it to rely on ticket "bursting" like other, lesser printers do. PayCheck 4 prints at an astonishing 250mm (9.8") per second in text mode with 500 dots per line, or 203 dots per inch. That means the printer completely prints a ticket faster than a player can reach for it, keeping the game fast and player satisfaction at a premium level.

Next, PayCheck 4 has 8mb of standard memory, and that huge amount of memory empowers operators to store more fonts, images, logos and barcodes so they can personalize their players' gaming experience. Instead of printing in text only or in one-color only, only PayCheck 4 can print complete graphics and text in full color. The memory means operators can communicate with customers with print graphics, logos, personalized offers, barcodes and more, continuing the property's brand experience.

Last, PayCheck 4 has an average life span of 640,000 slot-type tickets – twice that of other printers. Placed end-to-end, PayCheck 4 could print more than 60 miles of tickets before the print head expires. Combined with its fastest speed of similar type products, PayCheck 4 can print twice as many tickets, three times as fast.

JCM Global is the world's leading supplier of innovative automated transactions solutions for the banking, gaming and retail industries. With unsurpassed service and support, JCM Global is trusted by operators, manufacturers and integrators on six continents. Its extensive line of award-winning products set global standards with ground-breaking products like the iVIZION®, Universal Bill Acceptor (UBA®) and Vega-RC™ bill validators, Intelligent Cash Box (ICB®) and PayCheck 4™ thermal printer.
