JCM Global Wins 100 Percent of Bill Validator and Printer Business at King's Casino Rozvadov

DÜSSELDORF, Germany (4 February 2014) – JCM Global, the gaming industry's leading transaction technologies supplier, has won 100 percent of the bill validator and printer business at King's Casino Rozvadov in the Czech Republic.

The independent casino, known for its high levels of customer service, will replace all existing bill validators and printers in the casino's 150 EGMs with JCM's award-wining iVIZION® bill validator and PayCheck 4™ Thermal Printer.

Speaking for King's Casino Rozvadov, Mr. Johannes Weissengruber said, "King's Casino Rozvadov uses the latest and best technology throughout our casino to make our guest experience the best it can be. Now with these products from JCM, we have the best bill validation and printing technologies, too."

JCM Global EMEA General Manager Payam Zadeh said, "We are very excited to announce this deal and to bring our advanced technology to King's Casino Rozvadov. Throughout Europe and around the world, operators of all types and of all sizes have found JCM's transaction technologies to be better, smarter, faster and simply superior to all other products on the market today."

JCM's iVIZION is the foundation of intelligent validation, with the most advanced validation security features and anti-stringing technology available, all with an acceptance rate of 99+ percent. JCM's PayCheck 4 thermal printer prints faster, lasts longer and has more standard memory than any similar printer in the gaming industry.

See JCM Global's line of award-winning products this week at JCM's stand N8-120 at ICE Totally Gaming or online anytime at www.jcmglobal.com.
