**JCM Global Embraces Latin American Gaming Industry,
Brings Connection Technologies to SAGSE**

LAS VEGAS (October 29, 2014) – JCM Global is the gaming industry's leading transaction technologies supplier, and the company has been supportive of gaming operators across Latin America from Mexico to Argentina for more than a decade. Now JCM is bringing award-winning solutions that are better, smarter and faster to SAGSE.

At SAGSE, JCM will be in booth #200 showing a line of products carefully designed to help operators increase security and profitability and to make real connections with their customers.

"We have been working closely with operators across Latin America for more than a decade, helping them to make their operations more secure and more profitable. Now we are excited to be coming to SAGSE with the next generation of technologies and capabilities, to help operators evolve their operations even further and make connections with their customers," said JCM Latin America Sales Manager Eduardo Rozen.

JCM will show its award-winning line of products, including the iVIZION®, iPRO™, VEGA™, TBV™ bill validators; the PayCheck 4®, GEN3® and HSVL™ printers; the Intelligent Cash Box (ICB®) system and the new DNA total peripheral management system.

JCM will also host an Argentinean operator training during SAGSE. The training will cover JCM's bill validation and printer technologies, and attendees can choose a morning or afternoon session on either November 12 or 13. The popular training program helps operators better understand the products' technical functionality. The training is presented free of charge, and reservation is required. For information or to RSVP, email Gabriel.Becerra@jcmglobal.com.

Join JCM in SAGSE booth #200 or on Facebook, LinkedIn and Twitter.

About JCM Global
JCM Global is the world's leading transaction technologies supplier for the banking, retail, kiosk and gaming industries.
