### **JCM Global Exhibiting Groundbreaking Ticketing Solutions at UITP Tradeshow in this Week in Milan**

DÜSSELDORF, Germany (10 June 2015) – [JCM Global](http://www.jcmglobal.com) is a leading manufacturer of bill validation and ticketing technologies for the ticketing and transportation industries, and the company is breaking new ground with its broad portfolio of solutions this week at the [UITP World Congress & Expo](#).

The show takes place 8-10 June in Milan, Italy, and JCM is on stand 4F114.

Headlining JCM's exhibition is its new Vega-RC Twin™ bill validator with Anti-Vibration. The technology is a major advancement and allows riders to pay for their ticket on the bus with bank notes, and receive bank notes as change.

JCM EMEA General Manager Payam Zadeh said, "Once again, JCM is leading the way with our innovative Vega RC Twin™ bill validator with Anti-Vibration technology. We are pioneering this advanced technology, and no other company has this technology for mobile ticketing. With the Vega RC Twin with Anti-Vibration, operators can offer a completely new option to their customers – the convenience of paying for their ticket with bank notes, and receiving bank notes as change at TVM's inside the bus. This is a major step forward for the industry, and we are proud to lead the way."

JCM is also showing its iPRO-RC™ and iVIZION® bill validation technologies as well as the Fujitsu G60 and F53.

For more information about JCM's ticketing and transportation solutions, visit JCM on stand 4F114 at UITP or anytime at [www.jcmglobal.com](http://www.jcmglobal.com).
