Catawba Two Kings Casino Selects JCM Global for Pre-launch Facility in North Carolina

JCM installs iVIZION, GEN5, and ICB

LAS VEGAS (August 16, 2021) – The new Catawba Two Kings Casino pre-launch facility in Kings Mountain, N.C., opened to the public on July 1 and is protected by leading technologies from JCM Global® (JCM). Catawba Two Kings selected JCM's iVIZION® bill validator, GEN5® Thermal Printer, and ICB® Intelligent Cash Box system for the 500-slot casino.

JCM, which is working with Delaware North, the hospitality and gaming company consulting on the Catawba Nation's casino project, is planning to install these same award-winning solutions in future development phases of the Catawba Two Kings Casino.

"Delaware North has had great success using JCM's cash management products at its own gaming properties, and those products have worked very well during our first month of operations at Catawba Two Kings Casino," said Mike Ulizio, president of the Catawba Nation Gaming Authority. "JCM Global is a key part of our commitment to operate the casino with industry-leading tools and processes."

"We are honored to be a part of the Catawba Nation's first casino venture, and we are pleased that our long-term partner Delaware North recommended JCM for this project," said JCM SVP of Sales, Marketing, & Operations Dave Kubajak. "More Native American and First Nation casinos select JCM products than all other competitor products combined. We take that trust and responsibility seriously, and we continually defend our casino partners against evolving counterfeiting and cheating techniques."

JCM's iVIZION, GEN5, and ICB are part of a powerful technology roadmap for any casino floor. The combination of these products boost security, enhance the guest experience, increase efficiencies, and lay the groundwork for advanced solutions such as the FUZION® system and others.

More than 90 percent of Native American and First Nation casinos select technology solutions from JCM for their casino gaming floors. JCM will exhibit in booth #238 at OIGA.
