JCM Global Brings Technology Roadmap to Indian Gaming Tradeshow & Convention

*JCM's core technologies, systems, and digital signage
enhance player experiences throughout the casino*

LAS VEGAS (March 27, 2023) – More than 90 percent of North American tribal and first nation casinos trust solutions from JCM Global® (JCM). Now in booth #2031 at the Indian Gaming Tradeshow & Convention, JCM will present their technology roadmap to bring success today and in the future.

JCM's technology roadmap includes its core solutions such as the iVIZION® and UBA® Pro bill validators and GEN5® Thermal Printer. JCM's leading bill validators and printer increase security, accountability, and player convenience with exclusive, patented technologies.

Tribal casinos of all sizes are building on their JCM technology foundation and taking their operations to the next level with JCM's systems technologies like ICB® and FUZION®. With ICB, casinos evolve their cash and asset management to improve both the drop and count process.

The FUZION system provides real-time health monitoring data and predictive drop and maintenance scheduling to dramatically increase operational efficiency. Additionally, FUZION gives operators more choices to add cashless with technologies that securely enable Bluetooth and near-field communication options for mobile devices using proven technology available through a variety of FINTECH partners.

The unsurpassed brightness and clarity of JCM digital signage solutions, such as the DSS VB DIAMOND™, take guest experience to new heights. The VB DIAMOND has higher brightness and a wider viewing angle for the ultimate viewing experience from any seat in the house. From sports bars to sportsbooks, VB DIAMOND creates exciting environments that keep guests cheering for more.

JCM will also showcase play-enhancing systems like TITA® and PromoNet™, giving JCM's technology roadmap a fully rounded solution for every size of casino.

Discover what JCM's technology roadmap can do for your casino in IGA booth #2031, and join JCM on LinkedIn, Twitter, Facebook, and YouTube.
