JCM Global Provides Core Technology and Systems Solutions at new Terre Haute Casino Resort

iVIZION, GEN5, ICB protecting each of the casino's 1,057 slot games

LAS VEGAS (June 24, 2024) – The recently opened Terre Haute Casino Resort is taking the game and luxury to a whole new level in Indiana, with core technology and systems solutions from JCM Global (JCM®) protecting each of the casino's 1,057 slot devices.

JCM created a technology roadmap for Terre Haute Casino Resort to set them up for success and supplied its leading and award-winning iVIZION® bill validator, GEN5® thermal printer, and ICB® Intelligent Cash Box system across the casino floor.

The \$290 million Terre Haute Casino Resort is owned by Churchill Downs Incorporated (CDI), and this installation is the latest milestone in a years-long and multi-property relationship between JCM and CDI. Earlier this year, JCM installed these solutions at CDI's Derby City Gaming Downtown in Louisville, Ky.

"We are honored that CDI has once again exclusively chosen JCM and our solutions for their newest casino," said JCM SVP of Sales, Marketing & Operations Dave Kubajak. "Casino operators of all sizes and across the globe trust leading solutions from JCM Global to enhance the guest experience, increase efficiencies, and boost security. Our iVIZION bill validator, GEN5 thermal print, and ICB Intelligent Cash Box System are fundamental pieces of our technology roadmap and are proven to perform for our casino partners."

iVIZION is the gaming industry's leading bill validator, and sees better, thinks smarter, and runs faster than any product in its class. GEN5 has faster print speeds and larger memory for simple ticket printing and advanced couponing messages. ICB eliminates human error, increases accuracy, and helps increase compliance.
