### **JCM Global Licensed by Nebraska Racing and Gaming Commission**

LAS VEGAS (February 18, 2025) – JCM Global® (JCM) is continuing to secure gaming licenses across the United States, and now the company has successfully passed regulatory review and has been licensed by the Nebraska Racing and Gaming Commission. The license enables JCM to directly sell its industry-leading technology and to support its customers throughout the state.

This new license brings the total number of active gaming licenses JCM holds to 178. JCM recently announced it secured its other newest licenses in Colorado, New Mexico, and West Virginia.

In November 2020, Nebraska voters approved casino gaming at licensed racetracks within the state. With continued success in the market and the anticipated further expansion of gaming, JCM made the decision to obtain licensing, enabling the company to directly support its award-winning iVIZION® bill validator, GEN5® thermal printer, and systems products for its customers operating in the state.

JCM SVP – Sales, Marketing & Operations Dave Kubajak said, “We made the decision to pursue licenses in Nebraska and other jurisdictions to better serve our customers. These licenses allow us to expand our product offerings into the market and to directly support our customers without the need for third parties.”
