JCM Global Upgrades The Skagit Casino Resort with iVIZION Bill Validators, ICB Intelligent Cash Box System, DSS Digital Signage Solution

LAS VEGAS (September 16, 2025) – Entertainment is the game at The Skagit Casino Resort in Bow, Wash., and JCM Global® (JCM) has played a key role in multiple upgrades the property is implementing across the casino.

JCM Global upgraded 720 games from its pioneering UBA® bill validator to its innovative and award-winning iVIZION® bill validator. JCM also upgraded the existing ICB® Intelligent Cash Box system to the advanced, web-based ICB 3.0 system.

Additionally, JCM installed a vibrant Digital Signage Solution (DSS) 1.875mm LED video wall near the casino's entrance. This dynamic display will be used in various ways to enhance the guest experience, including showcasing live TV feeds, promotional property content, and recent jackpot announcements.

Dave Kubajak JCM SVP – Sales, Marketing & Operations said, “At JCM Global, we build meaningful, long-term partnerships with our customers. A key part of that relationship is developing a customized technology road map that ensures the casino floor operates at the highest levels of security and efficiency. We are honored that The Skagit Casino Resort continues to place its trust in JCM and our innovative solutions.”

JCM's iVIZION is the leading bill validator in its class, unmatched in both security and performance. Its advanced Contact Image Sensor (CIS) technology enhances security by scanning 75 times more data points than any bill validator, capturing the full image of both sides of a banknote or ticket, all while maintaining the fastest and highest acceptance rate.

JCM's ICB Intelligent Cash Box system streamlines the entire drop process, eliminating human error, enhancing accuracy, and boosting compliance. The ICB system offers customizable web-based reporting for intelligence-driven floor drops and decision-making.
