JCM Global Upgrades Seven Feathers Casino to iVIZION, ICB 3.0

JCM's award-winning solutions increase security, efficiencies

LAS VEGAS (October 21, 2025) – JCM Global® (JCM) is boosting security and increasing efficiencies at Seven Feathers Casino, Oregon's premier gaming and entertainment destination, in Canyonville, Ore. JCM has updated the entire casino floor to the technologically advanced iVIZION® bill validator and has upgraded the casino's ICB® Intelligent Cash Box system to the superior ICB 3.0 with web reports.

Including Seven Feathers Casino, JCM's ICB system is now active on nearly 300,000 EGMs in North America, making it one of the most widely used systems in the gaming industry.

Marty Sauvage, Seven Feathers Director of Slots said, "As a long time JCM partner, we were impressed with the JCM team and its commitment to a successful deployment of the iVIZION bill validator and latest in ICB technology to our casino floor and soft count operations."

Dave Kubajak, JCM SVP – Sales, Marketing & Operations, said, "We are grateful to the Cow Creek Band of Umpqua Tribe of Indians and the staff at Seven Feathers Casino for continuing to put their trust in JCM. JCM has partnered with the casino since it opened in 1992, and we are very pleased to be a part of this upgrade to our latest innovative solutions, adding further protections and system intelligence to the casino floor."

JCM's iVIZION is the leading bill validator in its class, unmatched in both security and performance. Its advanced Contact Image Sensor (CIS) technology enhances security by scanning 75 times more data points than any bill validator, capturing the full image of both sides of a banknote or ticket, all while maintaining the fastest and highest acceptance rate.

JCM's ICB Intelligent Cash Box system streamlines the entire drop process, eliminating human error, enhancing accuracy, and boosting compliance. The ICB 3.0 system offers customizable web-based reporting for intelligence-driven floor drops and decision-making.
