JCM Global Installs FUZION System, Upgrades Casino Floor to iVIZION at Black Oak Casino

LAS VEGAS (November 5, 2025) – JCM Global® (JCM) has installed its pioneering FUZION® system and upgraded the entire casino floor to the award-winning iVIZION® at Black Oak Casino in Tuolumne, Calif. Known for delivering an experience that's truly *Above it All*, Black Oak Casino is now elevating its operations with the powerful combination of iVIZION and FUZION, unlocking unprecedented floor management and security capabilities.

"FUZION has completely modernized how we manage our slot floor," said Jason Czito, General Manager at Black Oak Casino Resort. "What used to take hours of manual updates now takes seconds, and the added security and performance data give us new visibility into our operations. It's a tremendous leap forward for both efficiency and integrity."

Dave Kubajak, JCM SVP – Sales, Marketing & Operations, said, "We are thrilled to upgrade Black Oak Casino with the newest JCM solutions, marking the latest execution of our technology road map for the property. The combination of iVIZION and FUZION boosts security and further empowers the Black Oak Casino staff to provide outstanding customer service by maximizing machine uptimes."

JCM's award-winning FUZION technology is built with a double-encrypted data superhighway that connects the slot, its iVIZION bill validator, and its GEN5® thermal printer to the casino's backend. FUZION offers dozens of groundbreaking benefits for casinos, including real-time peripheral performance data; proactive alerts for drops, e-drops, and fills; real-time asset monitoring and tracking; and dispute resolution with high resolution banknote/TITO images.

iVIZION is the leading bill validator in its class, unmatched in both security and performance. Its advanced Contact Image Sensor (CIS) technology enhances security by scanning 75 times more data points than any bill validator, capturing the full image of both sides of a banknote or ticket, all while maintaining the fastest and highest acceptance rate.
