### **JCM Global Upgrades Golden Nugget Biloxi with iVIZION, ICB**

LAS VEGAS (November 12, 2025) – Golden Nugget Biloxi has been ranked as one of the top-rated casinos on the Gulf Coast, and now JCM Global® (JCM) has upgraded the casino floor with its award-winning iVIZION® and ICB® Intelligent Cash Box system.

JCM replaced its legendary UBA® bill validator and installed the innovative iVIZION on just under 500 devices. The upgrade completes a years-long effort, including purchasing new games with iVIZION, to convert the floor. JCM also installed the advanced ICB system on approximately 900 devices on the casino floor. The combination of iVIZION and ICB provides unequalled levels of protection, compliance, and efficiency.

JCM's iVIZION is the foundation of intelligent validation and is the solution that sees better, thinks smarter, and runs faster than any similar product, making it the most advanced bill validator on the market. iVIZION increases security with its Contact Image Sensor (CIS) technology that scans 75 times more data points than any bill validator in its class to capture the full image of both sides of a banknote or ticket. Its CIS and anti-stringing technologies defeat counterfeiters, all while maintaining the fastest and highest acceptance rate of any bill validator in its class.

JCM's ICB Intelligent Cash Box system is proven to speed up the entire drop process while also eliminating human error, enhancing accuracy, and increasing compliance, for the ultimate boost in drop and cage performance, compliance, and efficiency.

JCM SVP – Sales, Marketing & Operations Dave Kubajak said, "We are truly grateful to the Golden Nugget Biloxi team for placing their enduring trust in JCM. JCM has proudly partnered with Golden Nugget Biloxi since the property opened, and we are excited to bring the advanced technologies of iVIZION and ICB to the property, boosting security, increasing efficiencies, and enhancing the guest experience.
