JCM Global Completes Major Bill Validator Upgrade at Cache Creek Casino Resort

JCM upgrades casino floor from UBA to iVIZION

LAS VEGAS (January 26, 2026) – JCM Global® (JCM) has completed a significant upgrade of bill validators across the casino floor at Cache Creek Casino Resort. JCM replaced the existing UBA® bill validators with the award-winning, technologically superior iVIZION® bill validators across 827 games.

Cache Creek also utilizes JCM's highly advanced ICB® Intelligent Cash Box system.

"JCM's iVIZION bill validators help us deliver a smoother, more enjoyable experience for our guests," said Oliver Shoemaker, Vice President of Slot Operations at Cache Creek Casino Resort. "With faster acceptance, enhanced security, and reliable performance from JCM Global, guests spend less time waiting and more time playing, which will make a noticeable difference on our casino floor."

The upgrade to iVIZION provides the casino with a leap forward in both security and player convenience. JCM's iVIZION is the leading bill validator in its class, unmatched in protection and performance. Its advanced Contact Image Sensor (CIS) technology enhances security by scanning 75 times more data points than any bill validator, capturing the full image of both sides of a banknote or ticket, all while maintaining the fastest and highest acceptance rate.

Dave Kubajak, JCM SVP – Sales, Marketing & Operations, said, "JCM's UBA bill validator was a landmark technology, and the fact that they are still in use in some casinos speaks to the high quality of JCM's products. iVIZION built on that history of premium quality and surpassed it with the most advanced bill validator the gaming industry has known. We are honored by Cache Creek's loyal support for JCM, and we are thrilled to bring the industry's leading technology to their casino floor."

Ensure your casino achieves maximum protection and can accept all currencies. Contact your JCM representative today, and join JCM on [LinkedIn](#), [Facebook](#), and [YouTube](#).
