Live! Casino Virginia Opens with Industry-Leading Technology Solutions from JCM Global

LAS VEGAS (March 4, 2026) – The new Live! Casino Virginia in Petersburg is now open, inviting guests to experience the thrill of its full-scale gaming experience, and the casino is protected by the industry-leading technologies of JCM Global® (JCM).

Live! Casino Virginia has 75,000 square feet of gaming space, and each of the 926 slots is equipped with the award-winning suite of JCM's core products: the iVIZION® bill validator, GEN5® thermal printer, and the ICB® Intelligent Cash Box System.

Live! Casino Virginia is serving as a temporary casino while the permanent casino resort is being built. It is the fifth gaming property of The Cordish Companies to open exclusively with JCM bill validators, printers, and the ICB system.

Dave Kubajak, JCM SVP – Sales, Marketing & Operations, said, "We are honored to be chosen once again as the exclusive provider to a new gaming property created by The Cordish Companies. Operators of all sizes look to JCM for the gaming industry's best solutions that provide the highest levels of security, efficiency, and guest experience, and we are thrilled to continue our longstanding partnership with the Cordish and Live! teams."

JCM's iVIZION is the foundation of intelligent validation and is the solution that sees better, thinks smarter, and runs faster than any similar product, making it the highest performing bill validator on the market.

JCM's GEN5 has a lightning-fast CPU, dual channel communication, intelligent ticket handling, cross-enterprise promotional couponing, and superior electro-mechanical design. The combination of iVIZION and GEN5 empower JCM's highly advanced FUZION® system.

JCM's ICB Intelligent Cash Box system is proven to speed up the entire drop process while also eliminating human error, enhancing accuracy, and increasing compliance, for the ultimate boost in drop and cage performance, compliance, and efficiency.
