Something better, smarter, and faster is coming to the gaming industry, and JCM Global® (JCM) will host its world premiere in booth 4039 at G2E 2026. For years, JCM's award-winning iVIZION® has set the industry standard for bill validation technology across gaming environments worldwide. Now, the next chapter is coming.

The new iVIZION® 2 was carefully designed for today's evolving casino floor and was built to support the future of currency validation by delivering a new level of intelligence, performance, and operational efficiency.

iVIZION 2 will deliver a new level of intelligence with more data, more insights, and more power. iVIZION 2 has faster performance built for processing with speed, precision, and reliability in demanding gaming environments. JCM printers on display include the GEN5® Thermal Printer, CouponXpress™, and the EP802-TM and EP802-TMP roll printers from Eurocoin.

Also on display are the FUZION®, ICB® Intelligent Cash Box, and PromoNet® systems, along with CountR's TITA™ table game system.

JCM will present the next step towards the count room of the future with a focus on robotics automation, showcasing a simulated count room where the award-winning ICB ASAP® and G+D's M5 w/NotaTray® will illustrate efficient, highly secure asset processing that limits human contact with cash box contents and enhances productivity.

JCM recently acquired Fujitsu's cash recycler and dispenser division and will showcase its GSR 50 cash recycler, F53 bill dispensing unit, F56 bill dispensing unit, and F610 bill dispensing unit.

JCM's Digital Signage Solutions illuminate casinos across North America, and at G2E, JCM will display the flexible and stunning Video Wall, CLEAR half wall and full wall, and single and double-sided ePOSTERS.
