

A close-up photograph of the UBA Pro 2 Universal Bill Acceptor installed in a casino table. The device is a black, rectangular unit with a slot for bills. Several US dollar bills are visible, partially inserted into the slot. The background shows the dark, polished surface of the casino table and a portion of a chip tray with colorful chips in the upper left corner. The lighting is dramatic, with blue and purple hues. The text 'UBA Pro 2' is overlaid in a large, stylized font, with 'UNIVERSAL BILL ACCEPTOR' in a smaller font below it.

UBA ProTM2

UNIVERSAL BILL ACCEPTOR

HIGH SPEED PROCESSING

- UBA Pro 2-BNF is the fastest note acceptor in its category, processing notes up to every 1.3 seconds.

ENHANCED VISIBILITY

- The ICB and FUZION systems, in coordination with UBA Pro 2-BNF, empower operators to verify whether cash box contents match buy-in totals.

RUNS FASTER AND MORE RELIABLY

- UBA Pro 2-BNF can completely fill the cash box without slowing its processing speed.

FLEXIBLE CONFIGURATION

- UBA Pro 2-BNF is available with L (1,000-note capacity) and XL (2,500-note capacity) cash boxes to give operators unmatched flexibility.

HIGH-PERFORMANCE BANKNOTE VALIDATOR WITH BULK NOTE FEED

UBA Pro[®] 2-BNF, the newly designed Bulk-Note Feeder unit from JCM Global[®], securely processes up to 30 notes at once into an L or XL Cash Box. UBA Pro 2-BNF builds on the proven reliability of the UBA Pro platform and is ideal for high-throughput settings like table games. When UBA Pro 2-BNF is used with JCM's ICB[®] and FUZION[®] systems, casino operators gain real-time visibility of cash denominations in the cash boxes at their table games.
